

When I took on this job I instantly fell in love with it. I was learning something new everyday, and I was getting to share that with kids who I could see had that spark in them too and a real passion for learning!

-Liam, Instructor

Throughout my time at Code Hero I've been able to teach and mentor kids. The students here find it super enjoyable. They are able to express themselves though coding different projects and using different types of code. They come together to make new friends and learn life skills. Code Hero opens doors for how kids can one day impact the world.
